

Marlabs ERP Practice

Increase your competitive advantage
through your ERP system

Are you looking to your ERP solution to increase business efficiency
while driving innovation and differentiation?

Marlabs ERP implementations combine the product's best practices with your unique processes so that you get the best of the product and custom solution worlds.

Our ERP Services at a glance

Our ERP Services will be tailored to meet your needs. You can choose a single service or a combination of services – that can be adapted, as needed.

ERP strategy and needs analysis

Marlabs provides due diligence services that will enable you to build the business case for ERP and assess high level requirements.

ERP selection

We prepare comprehensive ERP specifications followed by development of the RFP and selection of the right solution.

“Software bugs, or errors, are so prevalent and so detrimental that they cost the U.S. economy an estimated \$59.5 billion annually, or about 0.6 percent of the gross domestic product.”

NIST News Release

"The Marlabs project team was extremely competent and had a strong understanding of our business as well as technologies which included designing a complete EDI package to transmit data to and from the Bureau of Workers Compensation, Ohio. I would strongly recommend their software development services or any other services as our experiences have been excellent."

*Anthony Kafiti, IT Manager,
1-888-Ohiocomp*

ERP implementation

Our implementation methodology incorporates frameworks such as Oracle's AIM and SAP's ASAP to deliver a quality solution and mitigate risk.

ERP customization

To align your ERP with altered needs, Marlabs will build ERP customizations and extensions - leveraging standards such as EBSO, OA framework, and ASAP.

User education and training

ERP skills gaps, if any, will be addressed by our comprehensive Education and Training programs.

ERP maintenance and support

By outsourcing maintenance to Marlabs, you can rest assured that your ERP will continue to meet your business needs.

ERP DBA Support

DBA support services - for Oracle and Oracle Applications as well as BASIS - will ensure that system performance is consistently at its best.

A winning solution!
