

Marlabs Consulting Services

Deliver IT services that enable you to stay focused on your business challenges.

Would you like to work with a partner who helps you increase agility with optimized business processes and robust technology?

Marlabs will support you in charting out a comprehensive IT roadmap that addresses your business and operational issues.

Our Consulting Services at a glance

You can choose a single service or a combination of services – that can be adapted, as needed.

IT Strategic Consulting

By developing an IT strategy that supports your business vision, we will enable you to create sustainable competitive advantage.

Business Process Consulting

We will map your business processes, identify areas for improvement, and create a process-oriented blueprint for implementing application systems that are aligned with your target business processes.

“Software bugs, or errors, are so prevalent and so detrimental that they cost the U.S. economy an estimated \$59.5 billion annually, or about 0.6 percent of the gross domestic product.”

NIST News Release

"Marlabs provided us with consulting, test and verification services for the Frontier Project where we developed the Voice Activated Assistant (VAA) telephony application. I am quite pleased with the technical expertise and commitment of the team. I am also impressed with their responsiveness and the flexibility to accommodate change. I would recommend Marlabs Inc. for similar work."

*Dennis White,
Manager, Ericsson*
