HISP Training & Certification

February 27- March 2, 2012

Early Bird Registration Offer – Register on or before the 15th of February and get an iPad 2 as an assured gift.

eFortresses and Marlabs are proud to bring the Holistic Information Security Practitioner (HISP) Training & Certification program to Piscataway, NJ.

The HISP course was created to provide Information Security, Risk Management, Governance, Audit and Compliance professionals the practical skills needed to help their organizations address information security and compliance requirements and implement Governance, Risk Management and Compliance (GRC) frameworks that are comprehensive, repeatable, sustainable and effective.

eFortresses developed the HISP training program. The HISP training promotes a holistic approach to information security program management and provides a certification opportunity in information security,

assurance and governance. **The HISP class focuses on international standards, best practices and comprehensive frameworks for developing robust and effective information security programs.**

Make plans to join us in Piscataway, NJ to:

- ✓ Learn the myths and facts about IT Governance, Risk and Compliance
- ✓ Learn how to effectively implement an Information Security Management System using ISO 27001 and ISO 27002
- ✓ Gain insight on how to integrate COBIT, COSO, ITIL and ISO into comprehensive frameworks
- ✓ Learn how to adopt a holistic, and cost-effective risk-based approach to security & compliance
- ✓ Learn to map governance and compliance controls to IT Service Management and security frameworks
- ✓ Learn how to improve confidentiality, integrity, reliability, sustainability and availability of your information assets
- ✓ Take the HISP certification examination
- ✓ Attend a Wednesday after-class reception

HISP Certification Course

(5 days) Overview

Course Description:

This is the only course available today that teaches the integration of ISO 27002/27001 with COBIT, COSO, ITIL and Multiple Regulations that pertain to information security & privacy.

Course Curriculum:

Day 1-3

The objective for the first three days is to provide delegates with the necessary skills to implement a corporate Information Security Management System (ISMS) framework that is compliant with the requirements of ISO 27001, and many of the most common regulatory requirements today including HIPAA, FFIEC, GLBA, SOX and PCI-DSS.

Days 1-3 focuses on ISO 27001 and ISO 27002 in the following areas:

- Security Policy
- Access Control
- Organization of Information Security
- Compliance
- Human Resources Security
- Business Continuity Mgmt.
- Physical & Environmental Security
- Information Security Incident Mgmt.
- Asset Mgmt.
- Communications & Operations Mgmt.
- IS Acquisition, Development & Mgmt.

Day 3-4

Days 3 and 4 provide attendees with overview of the audit process, COBIT, COSO and ITIL.

The objectives for days 3 and 4 are to provide delegates with information about audit procedures, COBIT, COSO and ITIL. This section builds on the first three days to reinforce the concept of using frameworks to achieve IT governance, compliance, security and risk management.

This section also covers “mapping” of controls to regulatory requirements and framework controls to other frameworks.

Day 5

Day 5 consists of material review, regulatory haystack & the certification examination. The objective of Day 5 is to ensure course expectations were met, review examination material, discuss the regulatory haystack and complete the HISP examination.

Target Audience:

- Staff tasked with the implementation of an ISMS
- Security Consultants
- Third Party Auditors
- Auditors (External and Internal)
- Information Security Officers
- IT Managers/Directors
- CSO, Physical Security Managers
- Privacy/Compliance Officers
- Risk Managers
- Key Business Stakeholders

Certification Exam:

- 100 multiple-choice questions
- 2 hour time limit
- Questions covering the entire HISP course curriculum

Schedule for future HISP programs in 2012:

May 21 - 25, 2012

Aug 27 - 31, 2012

Oct 29 - Nov 2, 2012
